

SHALLER CAMPUS

MONDAY 7-WEEK SESSION

CHESSMASTER

Gr. K-3

Jacob Rasin

Chess is the classic game that develops spatial thinking and strategies and builds focused concentration. Taught by a Chess Master, the class is geared for all levels of chess players. Beginners learn basic game rules and opening tactic moves. Intermediate and advanced players learn sophisticated combinations and strategies and advanced opening moves.

DRAWING

Gr. 2-3

Susan Fusco-Fazio

Do you like to draw? Have you ever seen something that you wished you could capture on paper? A variety of drawing materials will be made available to explore, such as graphite pencils, charcoal, colored pencils and ink drawings. This drawing class focuses on observation from nature, as well as adding personal interpretation and creativity to your chosen subjects. Class time will include sketching outdoors on warm, sunny days, enjoying and interacting with nature.

FLAG FOOTBALL

Gr. 2-3

Andrew Fink

It's 4th and inches. Will they go for the touchdown or play it safe and go for the field goal? Join this popular class for outdoor flag football. Divide into teams, play a season and cap it off with the infamous Mud Bowl!

STORYBOOK ART

Gr. K-1

B. J. Comerford

Where else can you curl up with a good story and then bring a piece of it to life with your own hands? Laugh at *Frog Belly Rat Bone* and make your own Junk Monster to guard your treasures. Explore the magic of color mixing as you paint with a squirrel named *Micawber* who uses his tail as a brush! Each week brings a new adventure with a story and an art project featuring Model Magic, paint, stamps, paper creations, and much more!

YOUNG SCIENTISTS

Gr. K-1

Know Atom

Have you ever tricked your sense of sight? Or created a model bridge so strong you could stand on it? If so, this is the perfect class for you. We believe children are natural scientists and engineers who are eager to learn about the world around them. Topics will include Buoyancy, Reaction Engine, Center of Gravity, Metamorphosis, Keystone Bridge, Solar House Muscles, and The Food Chain.

MONDAY AFTER SCHOOL HOUR

3:00-4:00 p.m.

April 12th - June 21 (9 weeks)

Cost: \$115

One hour of Extended Day. Get your homework done in a teacher-supervised study hall, or join one of our many exciting Extended Day activities. Children will have an opportunity for free play and time to socialize with friends.

BASEBALL**Gr. 2-3***Russ Bromfield*

It's a home run!! Baseball season is here, and our young athletes will participate in a season of training and games.

JUNIOR CARPENTER - All new projects!!**Gr. K-1***B. J. Comerford*

While constructing alien cities, benches, toolboxes, picture frames, cars, and other fun projects, students will develop and improve their woodworking skills, guided by individualized teacher instruction. As they measure, cut, and hammer, our young carpenters will develop hand-eye coordination and essential skills in planning, design, and problem solving. Young carpenters will learn basic tool safety and the use of wood tools. Goggles provided. All new projects. Designed for newcomers and children who participated in last semester's class.

KARATE - NEWCOMER'S**Gr. K-1***Derrick Clark*

A special introductory karate class for new students! This is an opportunity to join other beginning students and learn basic karate movements and skills. Open only to students who were in the Fall or Winter class.

POTTER'S WHEEL**3:00-4:00 (Gr. 2 & 3)****4:00-5:00 (Gr. 2-5)***Susan Fusco-Fazio*

In a semi-private small-class, children will learn to throw pots on the potter's wheel and then create lids, handles, spouts and other imaginative additions to their pots through "hand building." Learn to throw a cylinder-mug, flatter shaped plates, rounded bowls and vessels and tea pots. Pieces will be glazed to a food safe finish.

RAINBOW CHOIR: MUSIC FROM AROUND THE GLOBE**Gr. 1-2***Eugenia Gerstein*

This choir is for all children who love to sing and want to learn songs from many countries. Singing rounds and harmony, learning how to use voice - the instrument that is given to every child - will build self-confidence in every student. This is an opportunity to be part of a performing group and learn about music and art through singing. "Rainbow" will perform at the end of the session and at special programs at Schechter. Open only to students who were in the fall or winter class.

ROBOTICS WIZARDS**Gr. 3****6 week session 3:00-4:30 p.m.***Children's Technology Workshop*

It's ALIVE! Participants use LEGO Mindstorms components to construct a variety of robotic devices and control systems that model machines. Choose projects from four fun categories such as Sports, Amusement park, Vehicles, and Manufacturing and Construction design drawings, carefully prepared by engineers, ensure that the models are functional and leave room for creativity. Projects will be motorized, and programmed on a computer using several LEGO programming languages. During construction, instructors will introduce design challenges, discuss real-life robots, and teach participants about proper design and application of structural elements. The class will conclude with a group showcase of project photos that will be available for download. Note: LEGO models will not be taken home.

TUESDAY AFTER SCHOOL HOUR**3:00-4:00 p.m.****April 13 - June 22 (10 weeks)****Cost: \$125****See Monday Shaller Campus for description**

**ANIMATION WIZARDS II -
7 week class - NO CLASS ON 4/21**

All New Projects In The Spring!

Gr. 1-2

Children's Technology Workshop

Tell Your Story! This class guides students through the creation of a short stop- motion film. Stop-motion animation technique makes objects appear to move much like drawings can "move" in a flipbook. Students work in pairs to write and develop their own stories. Each class a new concept is introduced and practiced hands-on. Students explore various animation techniques and learn about production roles, scripting, storyboarding, camera work, lighting, set and character creation, and post- production process such as titles, transitions, and sounds. Laptops and cameras are provided, as is a variety of building materials, and post-production effects and sounds. Experienced animators can build on their previous skills to create timeless masterpieces of animation. Movies are available to take home. A strict non-violence policy is enforced. Open to new students or those who have already done this course. All new projects!

CLAY

Gr. K-1

Tonya Ratz Grifkin

There is always more to learn when it comes to clay! Students will take techniques they have already learned such as pinch, coil, and slab and use them in new and interesting ways. We will also learn decorating techniques such as carving, impressing, and incising. Projects will include crazy creatures, curious critters, and marvelous masks.

DO-RE-MI SINGING ENSEMBLE

Gr. 3

Gene Gerstein

DoReMi is a singing and performing group for third graders. The children in DoReMi will learn a wide range of vocal music, singing individually and as a group, using new stage technology - each child will use a wireless mike. The music will be arranged to have every child sing in harmony. The performances will combine singing and movement. The class is open to the 3rd graders who love singing and performing.

FROM BREAKFAST TO DESSERT

Gr. K-1

Jennifer Gorham

Have fun in the kitchen while making (and eating!) your favorite foods, from cakes and cookies to pizzas and other delicious treats that will be delicious for every part of every meal...it's easy and fun! Our young cooks will learn kitchen skills such as measuring, pouring, cracking eggs, and rolling dough. All new recipes this semester.

HAND-SEWN BY ME! - All new projects!

Gr. 2-3

Carol Price

"Hand sewn by me" will be the label on the pillow, stuffed animal and dolls that you make in this beginner's sewing class. Learn to stitch and make beautiful projects to take home with you. New sewing projects this semester! *Open to new and continuing students. Class limited to six.*

JAZZ/TAP - INTERMEDIATE CLASS

Gr. 2-3

Deborah Loomis

A dance studio class combining jazz and tap. Dance students will learn various routines focusing on jazz technique, flexibility, and performance skills. Dancers will also work on developing their own choreography. *Students can look forward to a formal dance recital on May 27 at 4:30 with a rehearsal on May 26 from 3:00-4:00. Open to continuing students only.*

SPORTS GALORE!

Gr. 1-3

Russ Bromfield

A great class for young athletes to develop skills and learn the rules of the games in an exciting, non-competitive environment. Students will play modified versions of traditional sports games while building team work and strengthening athletic skill. The class will also include some adventure-challenge activities.

WEDNESDAY AFTER SCHOOL HOUR

3:00-4:00 p.m.

April 7 - June 16th (10 weeks)

Cost: \$125

See Monday Shaller Campus for description.

GYM GAMES & SPORTS

Gr. K-1

Russ Bromfield

Focus will be on cooperative games and adventure-challenge activities. Students will play some of their favorite games as well as take on a whole slew of new, exciting games while building teamwork and strength.

JAZZ/TAP/BALLET

Gr. K-1

Deborah Loomis

Miss Deborah's dance class will focus on teaching students the basics of dance in a fun and supportive atmosphere. This combination class is divided into three 20-minute sections. In a structured and playful environment, beginning dancers will become familiar with the basics of tap, ballet and jazz. Students will develop confidence in movement while working on rhythm and basic technique.

Students can look forward to a formal dance recital on May 27 at 4:30 with a rehearsal on May 26 from 3:00-4:00. The spring session of dance is open only to students who have taken a previous class with Deborah.

KARATE - BEGINNER'S 3:00-4:00 P.M.

Gr. 1-2

Derrick Clark

The ultimate aim of karate lies not in victory or defeat, but in perfection of character. Karate offers a well-balanced training regimen, providing an opportunity for children to develop their coordination, endurance, strength, flexibility, and fluidity and to enhance confidence and self-esteem.

KARATE - INTERMEDIATE 4:00-5:00 P.M.

Gr. 2-3

Derrick Clark

Cost: Non-Extended Day - \$185

The ultimate aim of karate lies not in victory or defeat, but in perfection of character. Complete description under Wednesday. Intermediate Karate is for students with an orange belt or above.

TENNIS 3:00-4:00 and 4:00-5:00 p.m.

Gr. 2-3

Sari Gutten

Join Sari and learn tennis basics including forehands, backhands, serves and volleys, proper movement, and the rules of the game. Classes will be divided according to ability please let us know your level

YOUNG ACTORS THEATRE 3:00-4:30 p.m.

Gr. 1-3

Erica Berman

Join an exciting season! Schechter's Theatre Program provides an opportunity for our young actors to participate in a full script-based production in a creative character-development process geared to this age group. As they work on becoming a character, using *improv* and imagination, our young performers will develop skills in acting, dance, and movement....developing a stage presence, and working together in an ensemble. An unforgettable, rewarding experience, both for children with prior stage experience or for those who have never yet been on the stage. Don't miss this opportunity to participate in a full theatrical production. The Show will be on June 10th at 5:00 p.m.

THURSDAY AFTER SCHOOL HOUR**3:00-4:00 p.m.****April 8th - June 17th (10 weeks)**

Cost: \$125

See Monday Shaller Campus for description.

FRIDAY AFTER SCHOOL HOUR**3:00-4:00 p.m.****April 9th - June 18th (11 weeks)**

Cost: \$138

See Monday Shaller Campus for description.

SHOOLMAN CAMPUS

MONDAY WORKSHOPS

ROLLERBLADING April 12 - May 10

Sari Gutten

4 WEEKS

Roll, play and learn! In this class, you will learn the basics of skating and get some control on your wheels. Beginners welcome! Have some fun learning stopping, skating backwards and even spinning! We will create obstacle courses and play games to keep on our toes!

STAGE COMBAT

3:15-5:00 May 10 AND May 17

Erica Berman

2 WEEKS

Learn the basics of realistic stage fighting in a safe and fun, non-confrontational environment. Create the illusion of physical combat as you learn unarmed combat skills such as illusory slaps, punches, kicks, throwing, and more. There will be a demo of fight scenes at the end of the second class. Wear sneakers and comfortable clothes!

FUNKY DESSERTS May 17 - June 7

Sari Gutten

3 WEEKS

Treat yourself to scrumptious desserts that we will make from start to finish...fudge, red velvet cupcakes, truffles, popcorn balls and more.

CREATE A CHILDREN'S BOOK 3:15-4:45

Emma Tobin April 12 - May 10 **4 WEEKS**

We will look at some of our favorite children's books, and learn how to make our own. Which picture books were your favorites, and what made them so special? Was it the pictures or the words? What stories appealed to you most when you were younger? Using activities and games, we will experiment with children's bookmaking and produce a short book.

MONDAY AFTER SCHOOL HOUR

3:15-4:15 p.m.

April 12th - June 21 (9 weeks)

Cost: \$115

One hour of Extended Day. Get your homework done in a teacher-supervised study hall, or join one of our many exciting Extended Day activities. Children will have an opportunity for free play and time to socialize with friends.

TUESDAY

8-WEEK SESSION

FLAG FOOTBALL

Andrew Fink

Become a part of the Enrichment Sports Program! Our focus is to provide a safe, fun, and educational environment for students to compete in sports, while enhancing their personal and teamwork skills. Play football like a Super Bowl champion. Pass, catch, run the ball into the end zone for a touchdown. Join Andrew for a session of fall football. Divide into teams and play a complete mini-season!

MUSICAL THEATRE - MARY POPPINS

Erica Berman

3:15-5:15 (runs February through May)

Join us for the performance of *Mary Poppins* on June 7th at 5:30 p.m. This fabulous production will be open to students, families and friends!

POTTER'S WHEEL 4:00-5:00 p.m.

Susan Fusco-Fazio

This class will be held at the Lower School Campus at 60 Stein Circle. In a semi-private small-class setting, children will learn to throw pots on the potter's wheel and then create lids, handles, spouts and other imaginative additions to their pots through "hand building." See complete description on Tuesday Lower School page. No transportation to Stein Circle. Parents must bring children to this class.

TUESDAY AFTER SCHOOL HOUR

3:00-4:00 p.m.

April 13 - June 22 (10 weeks)

Cost: \$125

See Monday Shoolman Campus for description

WEDNESDAY

8-WEEK SESSION

GIRLS' BOOT CAMP

Sari Guttin

Focus on skill-building and becoming fit in this special class for girls. Improve strength, balance, agility, speed, coordination and flexibility using a variety of fitness equipment including stability balls, bands, medicine balls and more. Work on skills related to specific sports. Build skills as you participate in practice games.

LEGO ROBOTICS II - All New Projects!

Build-It-Yourself in collaboration with MIT

Build robots from LEGO Mindstorms and premium quality junk that play music, dance, greet friends, earn money, deliver candy, tell time and more. Stamp your inventions, "Made on another planet." Then present your projects on the Web. Your mission is to build machines that solve a problem and make your friends say, "Wow, how did you do that?" All new projects for the Spring! Open to both new students and those who have already taken the course.

WEDNESDAY AFTER SCHOOL HOUR

3:00-4:00 p.m.

April 7 - June 16th (10 weeks)

Cost: \$125

See Monday Shoolman Campus for description.

THURSDAY

7 -WEEK SESSION

COMPUTER ANIMATION

Children's Technology Workshop

3:15-4:45 6 WEEKS no class ON 4/22

Tell Your Story! This class guides students through the creation of a short stop-motion film. Stop-motion animation technique makes objects appear to move much like drawings can "move" in a flipbook. Students work in pairs to write and develop their own stories. Each class a new concept is introduced and practiced hands-on. Students explore various animation techniques and learn about production roles, scripting, storyboarding, camera work, lighting, set and character creation, and post-production process such as titles, transitions, and sounds. Laptops and cameras are provided, as is a variety of building materials, and post-production effects and sounds. Experienced animators can build on their previous skills to create timeless masterpieces of animation. Movies are available to take home. A strict non-violence policy is enforced.

BOYS' BASKETBALL

Andrew Fink

A fast-paced season of boys' basketball! Students will be divided into teams and play a season of full-court basketball in a competitive game environment. This is an excellent opportunity to strengthen your dribbling, passing and shooting skills as you become ready for the Schechter's Boys' Varsity and Junior Varsity Basketball Leagues.
